OFFICIAL AUTODESK TRAINING COURSE

Autodesk Revit Structure 2011/2012

- Essentials

Description

This course covers the basics of **Autodesk Revit Structure**. Delegates are introduced to the concepts of Building Information Modelling and the tools for parametric design, analysis, and documentation. Delegates learn the fundamental features of **Autodesk Revit Structure**, learning to use 3D parametric design tools for creating and analysing a project, and then finish with construction documentation and design visualisation.
