Course Overview

OFFICIAL GOOGLE EXPERT

Google SketchUp 7/8

- *Essentials*

Description

Delegates use **Google SketchUp** to learn that visualising spaces in three dimensions is critical to the success of the design of architectural spaces. The interplay of light, colour, space and form make exciting spaces function successfully.

Traditional methods for exploring these issues are very labour intensive. Use of computer software has enabled quicker, and often more accurate study models to be generated, explore and iterate more times in the time design time available to you.
