Course Overview

OFFICIAL AUTODESK TRAINING COURSE

AutoCAD Architecture 2011/2012

- Preliminary Design and Customisation

Description

AutoCAD Architecture Preliminary Design and Customisation focuses on conceptual design in the sense of massing studies and space planning, as well as several more advanced features for greater control over the program. This hands-on courseware covers many of the advanced features of **AutoCAD Architecture**. Delegates learn how to customise walls, elevations, and sections, create massing studies and space studies, and create object styles for wall, windows, doors, spaces, curtain walls, and several annotation objects.
